About Singres

At Singres Tiles, we believe that every space tells a story. Inspired by the rich heritage of Indonesian architecture and the natural beauty of our surroundings, we create exquisite mosaic tiles that blend timeless artistry with modern design.

Founded on a passion for craftsmanship and innovation, Singres Tiles is dedicated to transforming raw materials into works of art. Our tiles are more than just building materials – they are expressions of creativity, individuality, and luxury. From intricate marble mosaics to unique ceramic designs, every piece is meticulously crafted to inspire and elevate interiors.

Our commitment to quality and artistry has positioned Singres Tiles as a trusted partner for architects, interior designers, and visionaries worldwide. We aim to bridge the gap between art and construction, providing imaginative solutions that bring beauty and sophistication to any project.

At Singres Tiles, luxury is not about excess; it's about balance, simplicity, and the art of preservation. With every mosaic, we strive to bring art to life, leaving a lasting impression on spaces and the people who inhabit them.

"Each tile tells a story, every pattern whispers elegance. At Singres, we're dedicated to crafting spaces where art comes alive."

Bringing Art

to Life.

Our Vision

To be known for our commitment to artistic excellence in decorative ceramics.

Our Mission

1. Create exceptional, artistically crafted tiles that inspire creativity.
2. Collaborate with designers and enthusiasts to transform spaces into elegant masterpieces.
3. Elevate Indonesian architecture by seamlessly blending art with construction.
4. Honor and preserve artistry in every tile, embodying our motto: **"Bringing Art to Life."**

When the Mermaid Crosses the Ocean to the Land

Mosaic isn't just decoration. It's where architecture, design, and art come together to create something truly special. Art has a way of pulling us in, stirring emotions, and telling stories beyond words. It speaks through colors, shapes, and textures, forming connections that go beyond language. And in mosaics, this magic happens piece by piece, as each fragment comes together to form something bigger. Like this mural designed by Balinese mural artist Yessiow and brought to life by Singres Mosaic with special custom mosaic.

Every mosaic at Singres is crafted with care and attention to detail. Every piece of this mosaic is shaped and placed by hand. It all starts with large sheets of material, carefully cut into smaller pieces before being arranged by hand. The process is a mix of precision and creativity, where each tiny piece plays a part in the overall design.

This dedication to craftsmanship makes each mosaic not just a decoration, but a meaningful expression of art and identity. At Singres Mosaic, we believe every wall holds the potential to tell a story, whether it's through vibrant, dynamic patterns or soft, calming tones.

Mosaics can be tailored to any style, making each creation truly one of a kind.

The Water Drop, One by One

Have you ever wondered if the mosaic you choose will withstand the test of time? Will its color remain vivid, its texture intact, and its beauty undiminished? At Singres, we understand these concerns, and that's why every mosaic we craft is designed with durability, aesthetics, and functionality in mind, especially for spaces like bathrooms, where water meets art.

Every day begins and ends with a moment of refreshment, whether it's a morning shower or an evening ritual to unwind. Your bathroom is more than just a functional space; it's a retreat, a personal sanctuary.

The right mosaic doesn't just cover your walls, it transforms them, creating an environment that soothes the eyes and rejuvenates the senses.

Inspired by the gentle rhythm of water, our Water Drop mosaic design is a testament to precision and craftsmanship. The process begins with carefully selected porcelain mosaic modules, which are then cut into small, precise fragments. Each piece is arranged by hand, one by one, ensuring a seamless gradient that mimics the natural movement of water droplets. Because porcelain cannot be shaped in one swift motion, every cut is intentional, and every placement is meticulous to achieve the perfect flow of color and form.

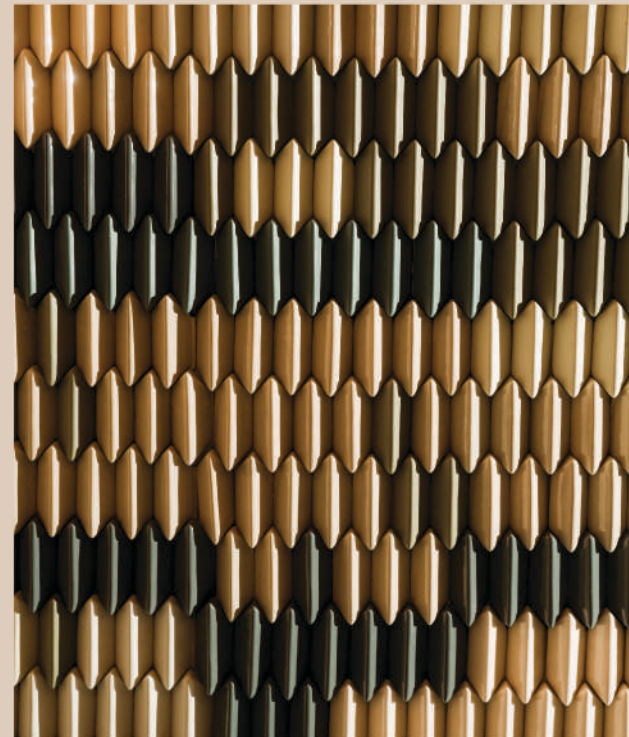

Creating a Mosaic Isn't Like Baking Cookies

Good things take time and great mosaics take months, because rushing art is like microwaving a gourmet meal. It all starts with a design, carefully planned so the final piece flows smoothly. Unlike factory tiles that pop out of machines like cookies, these are cast one by one, each with its own quirks and personality. Think snowflakes, but way more durable.

Once the tiles are shaped, artisans carefully apply paint, ensuring the right balance for an even, vibrant finish. Too much paint can obscure details, while too little may result in dull colors. Each tile is dried individually to maintain its texture and quality before being assembled into the final mosaic.

The result is a carefully crafted surface that highlights precision, skill, and dedication to the art of handmade tile-making.

Turning imagination into reality isn't as easy as snapping your fingers, but it's pretty close. With Singres Mosaic, your ideas don't just stay on paper; they become walls, rooms, and statement pieces that reflect your personality. Whether you want something bold and eye-catching or subtle and elegant, we bring your vision to life, one handcrafted tile at a time.

Ever watched ocean waves roll in and thought it would look great beneath your feet? This mosaic takes that vision and turns it into reality, using carefully cut marble. Every detail is chosen one by one, from colors, materials, and modules, through extensive research and development to make sure everything flows just

right. Each piece is shaped and adjusted one by one, creating a smooth and cohesive design.

Bringing it all together requires precision and attention to detail. Each tile is arranged, checked, and refined before being placed into the final composi-

tion. Every arch aligns perfectly, creating a seamless effect that feels effortless. The result is a stunning surface that transforms any space.

"With Singres Mosaic, **Bringing Art to Life**, inspire us, and we'll make it your forever eye-pleasing creation."

Amazon Series : Mosaic Art Designed for Water

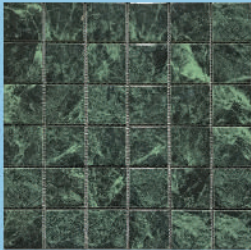

Mosaic Tale is made for spaces that embrace water, inspired by the rich, flowing hues of the Amazon River. Crafted from porcelain with an ultra-dense surface, it absorbs less than 1% of water, making it a reliable pick for pools and wet areas. Its greenish tones reflect the depth and movement of natural-

waters, staying consistent over time even with constant exposure to chlorine and sunlight. The textured surface adds just the right amount of grip, balancing function with a clean, polished look.

Each piece is designed to fit together effortlessly, creating a smooth, seamless finish. It resists moisture, stains, and discoloration, keeping maintenance simple. Whether for pools, spas, or fountains, it blends naturally into any water-friendly space, bringing a subtle touch of nature's beauty while staying timeless and practical.

Whether you want the look of traditional brick cladding or a rustic, handcrafted feel, this collection delivers. And it's not just for walls, its square version works beautifully as flooring, adding character to any space.

A favorite in Bali's architecture, terracotta blends seamlessly with tropical, mediterranean, and industrial designs. It pairs effortlessly with wood, concrete, and greenery, making it ideal for cozy cafes, open-air villas, and contemporary urban spaces. Whether indoors or outdoors, the Terracotta Series keeps things warm, inviting, and effortlessly stylish.
